#### Web developer

[ 12/02/2023 – 28/11/2024 ]

I have **2 years of professional experience as a Full Stack Developer**, specializing in the **MERN Stack (MongoDB, Express.js, React.js, Node.js)**. During this time, I have worked on developing modern, responsive, and scalable web applications, handling both front-end and back-end tasks. Alongside my main work, I also collaborated with a friend on **freelance projects through Fiverr**, where I focused mainly on **frontend development** for **international clients, including clients from the USA**. Through these experiences, I have gained practical skills in creating user-friendly interfaces, working with APIs, and building efficient, maintainable applications. I enjoy working in teams and always aim to deliver high-quality solutions that meet client expectations.
