PROFILE

I am a Full Stack Developer proficient in both front-end and back-end technologies, with expertise in the MERN (MongoDB, Express.js, React.js, Node.js) stack, I excel in crafting dynamic efficient websites and applications that meet the evolving needs of modern businesses.

APPLYING FOR:-

Applying for MERN Stack Developer.

WORK EXPERIENCE

Freelancer on Fiverr   2023 - present

Doctor's Appointments System
Created a full-stack web app using React.js for frontend and Node.js with Express.js for backend. Integrated MongoDB for data management. Allows patients to schedule appointments, manage profiles, and receive notifications. Implemented features for doctors to view schedules and manage appointments.Utilized modern web tech for intuitive UI and seamless communication between frontend and backend.

Restaurent Booking System

Developed a full-stack web application using React.js for the frontend and Node.js with Express.js for the backend, integrated with MongoDB for database management. Enables users to book restaurant reservations, explore menus, and manage profiles. Implemented features for restaurant owners to manage bookings and update menus. Leveraged modern web technologies for a seamless user experience and efficient data management.

SYLANI MASS IT TRAINIG

- I spent one year at sylani institute for the purpose of learning, and I had a great experience with the sylani instructors.
- I have also completed many assignment projects and participated in hachthons.
